

# ELITE Series

Smart Irrigation  
Controllers

## ELITE Series - A smart irrigation solution for better water control.

The ELITE series of irrigation controllers provides powerful, flexible solutions for all your irrigation needs. Seamlessly integrates with our ICC PRO software or capable of operating in stand-alone mode, ELITE controllers can manage systems ranging from small sites to large-scale operations. With compatibility for a wide variety of sensors and multiple communication options, ELITE controllers ensure easy programming, installation, and operation. The ELITE series is also available in CAS (Complete Assembly Set) form, delivering smart and efficient irrigation control.

**Smart solution  
for your irrigation**

## ELITE PRO

A powerful and intelligent irrigation controller designed to manage extensive irrigation systems. Supports numerous valves and diverse sensors, ensuring advanced and efficient water control.

Up to 90 Stations,  
12 Sensors and  
Flow Meters

## ELITE LITE

A compact, user-friendly irrigation controller tailored for smaller areas. Ideal for managing a limited number of valves with simplicity and smart functionality.

4 Stations,  
1 Sensor,  
1 Flow Meter

## ELITE MONITOR

A versatile monitoring controller built for connectivity. Supports a wide range of sensors, providing real-time data for optimal system performance.

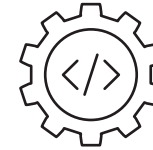

2 Stations,  
2 Sensors,  
4 Flow Meters

# Features & Benefits

### Flexibility

Integrates into existing ICC PRO system or as a standalone controller by MyELITE app

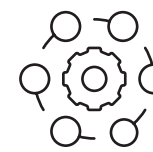

### Simplicity

Exceptionally easy to operate & program  
Install, program and use

### Connectivity

Cellular, Internet and Wi-Fi communication

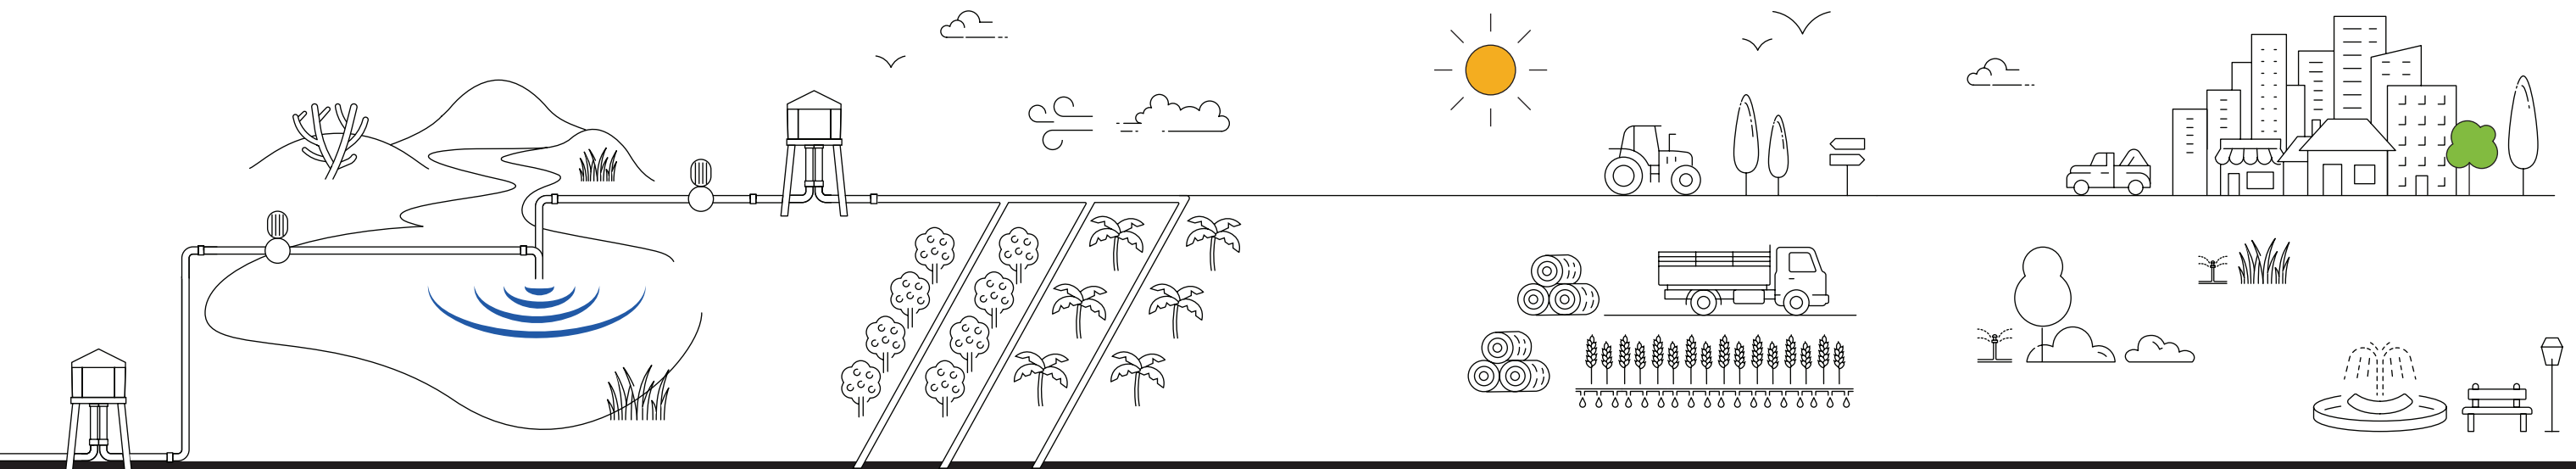

### Variety

AC/DC: The same hardware supports AC and DC Latch Solenoid

	ELITE PRO	ELITE LITE	ELITE MONITOR
Digital Inputs / Digital Outputs	10*	4DO + 2DI	2DO + 4DI
Analog Inputs	2	1	2
Flexibility in unit configuration	Yes	No	No
Mottech Decoder System (MDS)	Yes	No	No
SDI12	Yes	No	Yes
MyELITE - Stand Alone Controller	Yes	Yes	Yes

\* Expandable up to 90 DI/DO
